What our students are saying about the Package!

Thameem (India): This study material is really good. It has so much content that couldn't anywhere else. I like Ms. Hanan style of teaching, she makes things a lot easier to understand and now I've got good grasp of Emirati language.

Habibie (Indonesia) AlRamsa is really great institute to learn Arabic especially Emirati because of dialect teaching into "real-world" local Emirati conversation. These materials helped strengthen my basic Emirati Arabic.

Fateme (Iran) I had a very wonderful experience with AlRamsa. For me as a native Farsi speaker, I understand most of the Emirati words. At some point I was already confident that I can communicate with Emiratis, but I was wrong, after going through this package, I learned so many Emirati Arabic words that I haven't heard before, and this package helped build my basic Emirati Arabic vocabulary.

Leonard (British) I have taken some classes with AlRamsa, from private course to group course. I started intermediate level because I am already fluent with classical Arabic. It was a wonderful experience, but my learning experience became even better with this package. This package helped me on my basic grammar, and I learned a lot about the difference Emirati Arabic from the Classical Arabic.

Sarah (French/Moroccan) I speak fluent Moroccan Arabic and I realised that it's somehow different than the Emirati Arabic, but after getting this package, I have improved a lot. Thanks to this package, my basic grammar from Moroccan Arabic to Emirati Arabic has been better. My friends are happy whenever they hear me speak Emirati Arabic.

Tatjana (Lithuania) I like to learn Emirati Arabic with Al Ramsa study materials because they use dialogues from real life and word topics which could be discussed and practiced with friends. Arabic is not easy language to translate in English especially dialect, so learning not only from the e-books but also watching Emirati movies and video clips in this premium package really makes learning process fun and enjoyable 🤗

Josie (German) Since I had limited time to learn Emirati Arabic so I felt that it's hard to only study during class, I need to do some self-practice and revision to improve more. It was hard since there were limited resources for learning Emirati Arabic until AlRamsa published this amazing premium package. Highly recommended.
